

APPLICATION FOR PERMIT

Serial No. 5415

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office MAR 11 1919
 Returned to applicant for correction _____
 Corrected application filed _____

The undersigned H.H.Springmeyer Land Development & Livestock
Company, a corporation, Name of applicant
 of Minden, County of Douglas,
 State of Nevada, hereby make application for
 permission to appropriate the public waters of the State of Nevada,
 as hereinafter stated. (If applicant is a corporation give date and
 place of incorporation.) _____

1. The source of the proposed appropriation is Carson River and
Cottonwood Slough, Name of stream, lake, or other source.
2. The amount of water applied for is 2.5 second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Irrigation and domestic purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
 point: This is an application for change in point of diversion and
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
place of use. See supplemental sheet.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about _____ and end about _____
Month.
 _____, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.

- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____
6. Estimated time required to construct works _____
7. Remarks _____

For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Actual construction work shall begin on or before _____

Proof of commencement of work shall be filed before _____

Work must be prosecuted with reasonable diligence and be completed on or before _____

Proof of completion of work shall be filed before _____

Application of water to beneficial use shall be made on or before _____

Proof of the application of water to beneficial use must be filed with State Engineer on or before _____

WITNESS MY HAND AND SEAL this _____ day
of _____

State Engineer.

SUPPLEMENTAL SHEET.

SERIAL NO. 5415

APPLICATION FOR PERMIT TO CHANGE THE POINT OF DIVERSION AND
PLACE OF USE OF WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED.

Date of first receipt and filing in State Engineer's Office MAR 11 1919
Returned to Applicant for Correction _____
Corrected Application Filed _____

The undersigned H.H.Springmeyer Land Development & Livestock Company, a corporation, organized and existing under and by virtue of the laws of the State of Nevada, having its principal place of business at Minden, County of Douglass, State of Nevada, hereby makes application to change the point of diversion and place of use of waters heretofore appropriated and beneficially used, as herein-after shown.

1. The source of the water supply proposed to be changed is Carson River and Cottonwood Slough, a branch of the Carson River, but Carson River is the main source of supply.
2. The quantity of water desired to be changed is the amount heretofore used which is greater than 2.5 cubic feet per second.
3. The water is to be used for irrigation and domestic purposes.
4. The water is to be diverted from its source at the following point: From Carson River at the N.W. quarter of the N.E. quarter of Section 5, Township 12 N., R. 20 E., M.D.B. & M.; thence conducted to Cottonwood Slough and re-diverted through the present existing ditch, the point of diversion of which is in the N.E. quarter of the S.W. quarter of Section 32, Township 13 N., R. 20 E., M.D.B. & M. The original ditches will all be used in part, and none of the same will be abandoned or discontinued except as herein stated.
5. The existing point of diversion under the former appropriation is as follows: The N.W. quarter of the N.E. quarter of Section 5, Township 12 N., R. 20 E., M.D.B. & M., from Carson River, and partially in the N.W. quarter of the N.W. quarter of Section 4, T. 12 N., R. 20 E., M.D.B. & M., from Cottonwood Slough, and partially in the N.E. quarter of the S.W. quarter of Section 32, T. 13 N., R. 20 E., M.D.B. & M., from Cottonwood Slough.
6. The water herewith desired to be changed has been beneficially and continuously used for irrigation and stock-watering purposes upon the following described lands:

18.2	acres	Pasture	in the	NW $\frac{1}{4}$	NE $\frac{1}{4}$	Sec. 31

All in T. 13 N., R. 20 E., M.D.B. & M.,

10. Description of the proposed works: The water is now diverted from the Carson River by means of dams, ditches, and headgates and used upon both of the above-described tracts of land. The ditch diverting from the Carson River, called the "Springmeyer Ditch," will be enlarged to carry approximately two and one-half (2½) cubic feet of water per second in addition to that now carried. The Gardner and Springmeyer Ditch, diverting from Cottonwood Slough, now existing, and the Reservoir Ditch, diverting from Cottonwood Slough, now existing and used, will not be enlarged, but will continue to be used to carry waters which are now, and which have heretofore been used in irrigating the Springmeyer Ranches.

11. The estimated cost of proposed works is two hundred and fifty (\$250.00) dollars.

12. The estimated time required to construct works is thirty (30) days after approval of application.

13. Irrigation will begin about March 1st. of each year and end about November 1st. of each year. The irrigation season varies from time to time, dependent upon the season. It is desired to irrigate whenever conditions permit, irrespective of the dates herein mentioned, inasmuch as the land has been irrigated in the past whenever seasonal conditions permitted it.

14. The water has been used heretofore during the months of March to October, inclusive, as explained in Paragraph 13 above.

15. REMARKS: The water used upon the land mentioned in Subdivision 6 above is desired to be used upon the lands named in Subdivision 9 above; and the water now used upon the lands in Subdivision 9 above is desired to be used upon the lands named in Subdivision 6 above; this application is an application to change the place of use, as well as the point of diversion.

To effect the above interchange of water, applicant, in order to complete this filing in accordance with the rules of the State Engineer's office and in accordance with law, adds the following proposed data:

The undersigned H.H. Springmeyer Land Development & Livestock Company, a corporation organized and existing under and by virtue of the laws of the State of Nevada, having its principal place of business at Minden, County of Douglas, State of Nevada, hereby makes application to change the point of diversion and place of use of waters heretofore appropriated and beneficially used, as hereinafter shown, for the purpose of changing the supply of water heretofore used upon the lands mentioned in Subdivision 9 above to the lands heretofore mentioned in Subdivision 6 above.

A. The source of the water supply proposed to be changed is Carson River and Cottonwood Slough, a branch of the Carson River, but Carson River is the main source of supply.

B. The quantity of water desired to be changed is the amount heretofore used which is greater than 2.5 cubic feet per second.

C. The water is to be used for irrigation and domestic purposes.

D. The water is to be diverted from its source at the following point: From Carson River at the N.W. quarter of the N.E. quarter of Section 5, Township 12 N., R. 20 E., M.D.B. & M.; thence conducted to Cottonwood Slough and re-diverted through the present existing ditch, the point of diversion of which is in the N.E. quarter of the S.W. quarter of Section 32, Township 13 N., R. 20 E., M.D.B. & M. The original ditches will all be used in part, and none of the same will be abandoned or discontinued except as herein stated.

E. The existing point of diversion under the former appropriation is as follows: The N.W. quarter of the N.E. quarter of Section 5, Township 12 N., R. 20 E., M.D.B. & M., from Carson River, and partially in the N.W. quarter of the N.W. quarter of Section 4, T. 12 N., R. 20 E., M.D.B. & M., from Cottonwood Slough, and partially in the N.E. quarter of the S.W. quarter of Section 32, T. 13 N., R. 20 E., M.D.B. & M., from Cottonwood Slough.

F. The water herewith desired to be changed has been beneficially and continuously used for irrigation and stock-watering purposes upon the following described lands:

20.4	acres Alfalfa in the	SW¼	SE¼	Sec. 30
9.8	"	"	SE¼	Sec. 30
